

*Second Annual  
Production Sale*

March 14, 2020

1 PM At Headwaters Livestock Auction Yards  
Three Forks, MT

## *Friends Et Fellow Beef Producers,*

The Van Dyken Family would like to welcome each of you to our second annual production sale. We want to thank all of you for making our first sale a great experience for us and hope to visit with each and every one of you at Headwaters Livestock Auction on March 14th. At Thousand Hills, it is the friendships that we have made over the years that we value the most. That is truly the best thing about being in the beef business.

We have been very blessed over the past year, more than we could hope or imagine. Everyone's health and checkups have been good. Having to fight through health issues really makes you appreciate the blessing that good health is.

What a crazy year it was. After cruising through January, we thought we had it made. OOPS. Then February hit. And March. And April. Finally the grass turned green and we got to turn cows out. Summer was a blessing and a curse. A blessing if you wanted moisture for the grass, and a curse if you were trying to put up hay. Through it all, our cows did just what they are supposed to do. Come home in the fall, bred, with a good calf at their side.

Our breeding program focuses on "Maternally Driven Genetics". Bulls are selected based on their ability to sire outstanding females, and still have the growth and power needed for today's market. We AI on natural heats for one cycle and then the bull goes to work. Our goal is a 42 day calving season. Our calves are raised on their mother's milk and grass on mountain pastures. We try to run our cattle as much like a commercial herd as possible. The environment we run in is our best selection tool. We don't tolerate bad dispositions, feet, or udders.

Our bulls were weaned September 23 onto grass meadows and feed a weaning pellet until December 11. We then brought them in to the feedlot where we fed them a high roughage ration of grass/alfalfa hay, corn silage, and 4 lbs/hd/day of whole corn. All of our feed is home raised except for a mineral pellet that is fed at a half pound per day. Our goal is to have the bulls developed enough to express their genetic potential and be ready to go breed cows in the spring.

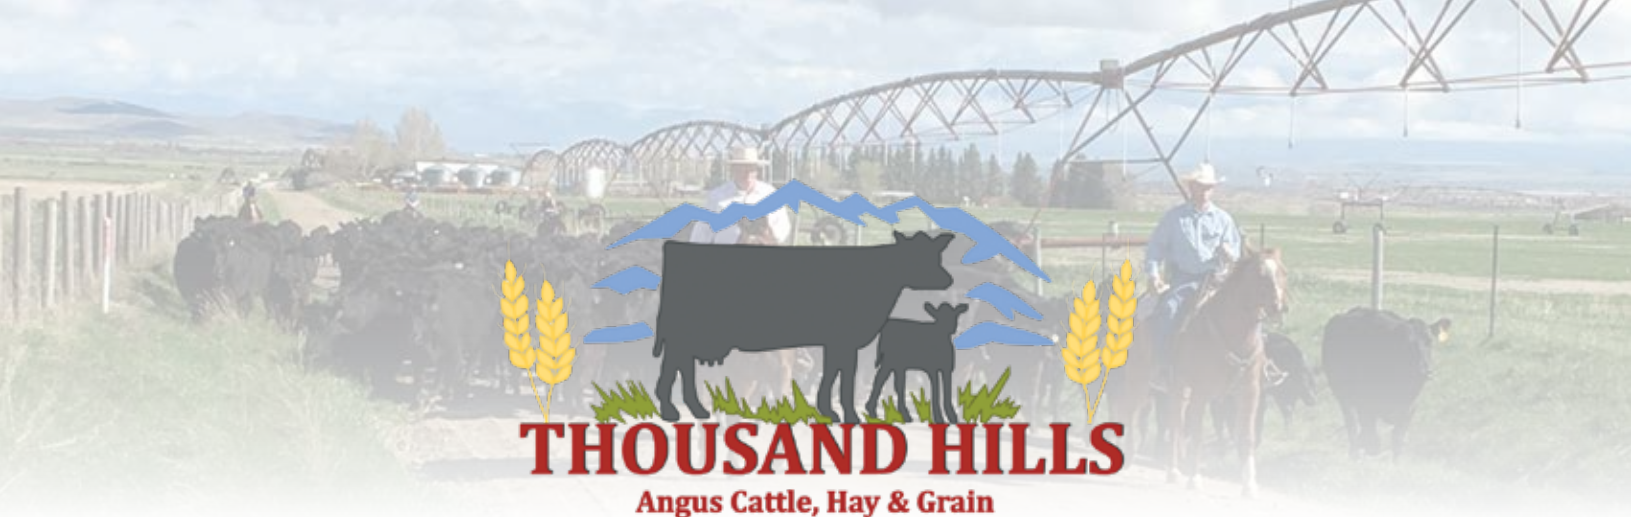

All our bulls are guaranteed 100%. If you have a problem with a bull you purchase from us, we will make it right. Some breeders are asking you to purchase insurance on the bulls they sell, but we feel the only insurance you need is the Thousand Hills name.

If you would like to take a more leisurely look at the bulls anytime before the sale, we would be very happy to show them to you. We are feeding them at the home place in Toston. If you are unable to attend the sale, but there is a bull or two you are interested in, we will guarantee your satisfaction on any bulls you purchase. You are welcome to view, bid, and buy the bulls on [CattleUSA.com](http://CattleUSA.com).

Videos of the bulls are available for viewing at: [ThousandHillsAngus.com](http://ThousandHillsAngus.com)

Hope to see you sale day or anytime you can stop by,

*- The Van Dykens*

# THOUSAND HILLS

Angus Cattle, Hay & Grain

## Auctioneer

Kyle Shobe..... 406-366-0472

## Accommodations

Travelodge Three Forks..... 406-285-3233  
 Broken Spur Motel ..... 406-285-3237  
 Sacajawea Inn..... 406-285-6515

## Presale Dinner

Friday evening at Headwaters Livestock Auction Yards.  
 Please RSVP to 406-581-5541

## Lunch

Lunch will be served the day of the sale beginning at 12 PM.

## Driving Directions

From Interstate I-90, take exit 274 west of Three Forks, MT. Turn north and continue for approximately 0.9 miles before turning west on Wheatland Road. Travel roughly 0.4 miles & Headwaters Livestock will be on your left.

## Guarantee

All Bulls are guaranteed for the first breeding season.

## Liability

All persons who attend this sale do so at their own risk, legal or otherwise. Thousand Hills Angus assumes no liability for property loss or or accident that may occur.

## QR Codes

Use the QR codes to view lot videos. Download a QRcode reader app on your smartphone. Open the app, hover over the QR code in the catalog, and you will be directed to the video link.

Black Cash was the high selling bull in 2014 South Montana Angus Association Sale. An eye appealing bull with excellent feet and legs. He is a calving ease sire with growth and his pedigree is loaded with maternal. Owned with Heide Angus of Boulder, MT.

### A GUIDE TO EPDS

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the American Angus Association database. EPDs are expressed in units of measure for the trait, plus or minus.

#### PRODUCTION

**Calving Ease Direct (CED)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth Weight EPD (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight EPD (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Yearling Weight EPD (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**Scrotal Circumference EPD (SC)**, expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

#### MATERNAL

**Maternal Milk EPD (Milk)**, is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

*\*1116 is one of our current reference sires. We've used his EPDs to illustrate the definitions for each number.*

## TH Black Cash 1116

CED	BW	WW	YW	SC	Milk	HP	\$W	\$M	FAT	MARB	RE
+14	-1.5	+53	+99	+1.07	+27	+10.1	+64	+61	+0.003	+0.13	+0.48

1116 is the bull we chose to use to breed heifers to on their second cycle. He is a true sleep through the night calving ease bull as the calves just come shootin' out.

**Heifer Pregnancy (HP)**, is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

**Weaned Calf Value (\$W)**, an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning. The underlying objective being producers will retain 20% of the female progeny as replacements and sell the rest of the cull females and their male counterparts as feeder calves. Traits included are as follows (in no particular order): birth weight, weaning weight, milk, and mature cow weight.

#### \$VALUE INDEXES

**Maternal Weaned Calf Value (\$M)**, an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

#### CARCASS

**Marbling EPD (Marb)**, expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area EPD (RE)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

**Fat Thickness EPD (Fat)**, expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

## S Chisum 255

One of the most highly proven spread bulls in the Angus breed, FORTRESS calves come easy, have great vigor and grow exceptionally well. A \$Weaning trait leader who breeds profit into cattle at all stages of their life. His sons are high-volume, easy-fleshing and fast-gaining. They have topped sales across the U.S. and are well accepted in both the purebred and commercial sectors.

Lot 7's full brother was our lead off bull in last year's sale, selling to Ken Rohr. This bull is a mirror image of his brother. A big growthy Chisum son with good depth of rib and thickness throughout! He would also work great on a set of heifers.

One of our best Prime Cut sons we have raised. This moderate frame bull is long, deep and very thick. His Dam has never missed AI service, she calved early again this year. He is backed by 11 generations of cows producing 5 or more calves with most of those producing 10 calves. All of the cows in the past 10 generations have above 100 weaning ratios with them averaging 104. Cows that stick and have above average calves!

as both Grandam and Great Grandam made pathfinder status, as well as 8 straight generations of cows producing 7 or more calves. Producing cows that stick! 1421 is following in their footsteps as she has calved early once again this year. Gunsmoke is a 255 son used heavily in our AI breeding of heifers and cows- we are really excited about how his calves are looking on the ground. His 2020 calf crop average birth weight was 70.5 lbs. We plan to use him heavily in years to come. Contact us to order semen!

*We look forward to seeing you sale day!*

**Please contact us if we can be of assistance.**

- Rick VanDyken..... 406-581-2078
- Andy VanDyken..... 406-570-1337

*Thank You for your interest in our program.*

**The bulls can be viewed at our home anytime up to the afternoon before the sale when they will be hauled to Headwaters Livestock Auction.**

85 Lone Mountain Rd.  
Toston, MT 59643

*“For every animal of the  
forest is His, and the cattle  
on a thousand hills.”*

- Psalm 50:10

*Second Annual Production Sale*

**March 14, 2020**

1 PM At Headwaters Livestock Auction Yards
