*5th Annual Production Sale*

**Saturday • March 11, 2023**

**1 pm | Headwaters Livestock Auction Yards | Three Forks, MT**

***ThousandHillsAngus.com***

## *Friends and fellow beef producers,*

The Van Dyken Family would like to invite all of you to our fifth annual production sale. We thank you for your support at our previous sales and look forward to seeing you all on March 11 at Headwaters Livestock in Three Forks, MT. At Thousand Hills, we truly value each friendship and acquaintance we have made over the years. The comradery of beef producers makes it far and away the best business to be in.

We would like to take this opportunity to thank everyone, and there are more than we can count, who helped us through this last half year. Harvesting, baling, stacking, moving cows, and the many cards, thoughts, and prayers; your thoughtfulness has made a huge difference to our family. Thank You doesn't seem adequate to express our appreciation for each of you

We were blessed with some timely moisture in 2022, and the grass held on long enough for our calves to really express their potential. About the middle of July, the rain shut off and the grass started drying up, but the calves did great. This is our best overall set of calves we have ever had. Other areas of the state and country did not fair as well and a lot of cows went to town.

With the reduction in cow numbers, this calf market is about to get really good. I saw a prediction the other day of 6 weight calves bringing well over \$1400. And when we get moisture, this female market will be wild. Keep as many cows as you can, maybe bid another time or two to get that bull you really want, and then hold on. This thing is about to get really good.

The breeding program at Thousand Hills is focused on "Maternally Driven Genetics". The bulls we select to use on our cows are chosen for their ability to sire outstanding females, while still having the performance and power needed for today's market. We believe that cows were created to convert grass into good tasting protein. If that cow isn't pregnant, she's not doing what she was created to do, therefore, fertility is at the top of our requirements for our cows. We AI for 21 days and then turn out the bulls. Our goal is a 42 day calving season. Our calves are raised on their mother's milk and grass on mountain pastures. You won't find a creep feeder on our place. We don't tolerate bad dispositions, bad feet, or bad udders. The environment we run in is our best selection tool and the cream always rises to the top.

The bulls were weaned September 20 this year and turned onto a grass meadow and fed a weaning pellet. On Nov. 22 we brought them to the lot and put them on a high roughage ration. Our goal is to have them developed enough to express their genetic potential and be ready to breed cows in the spring.

Once again, all the bulls will have a freeze brand. No more ear tag worries.

All our bulls are 100% guaranteed by Thousand Hills. If you have a problem with a bull, let us know. We will make it right.

The bulls are on feed here at home until the 10th of March. If you would like to look at the bulls at a more leisurely pace, we would be happy to have you stop by for a cup of coffee and a stroll through the bull pen.

If you are unable to attend the sale but would like to purchase, the sale will be on Northern Livestock. They will need you to preregister for the sale 24 hours in advance. We also have phones available on sale day if you prefer that. Let us know and we will make those arrangements.

This year we partnered with Ron Frye Marketing so if you want an unbiased opinion on the bulls, give Ron a call. (406) 600-7514

Videos of all the bulls are available at: [ThousandHillsAngus.com](http://ThousandHillsAngus.com)

Look forward to seeing you sale day or any other time,

*The Van Dykens*

# THOUSAND HILLS

Angus Cattle, Hay & Grain

## Auctioneer

Kyle Shobe ..... 406-366-0472

## Accommodations

Travelodge Three Forks ..... 406-285-3233  
 Broken Spur Motel ..... 406-285-3237  
 Sacajawea Inn ..... 406-285-6515

## Presale Dinner

Friday evening at Headwaters Livestock Auction Yards.  
 Please RSVP to 406-581-5541

## Lunch

Lunch will be served the day of the sale beginning at 12 PM.

## Driving Directions

From Interstate I-90, take exit 274 west of Three Forks, MT. Turn north and continue for approximately 0.9 miles before turning west on Wheatland Road. Travel roughly 0.4 miles & Headwaters Livestock will be on your left.

## Guarantee

All Bulls are guaranteed for the first breeding season.

## Liability

All persons who attend this sale do so at their own risk, legal or otherwise. Thousand Hills Angus assumes no liability for property loss or or accident that may occur.

## QR Codes

Use the QR codes to view lot videos. Download a QRcode reader app on your smartphone. Open the app, hover over the QR code in the catalog, and you will be directed to the sale lot video page.

## Sale Day Phones

 Kurt Kangus, Angus Beef Bulletin ..... 406-366-4190

## Terms and Conditions

All cattle sell under the terms and conditions adopted by the AmericanAngus Association. Each animal becomes the risk of the purchases as soon as it is sold. Thousand Hills reserves the right to retain 1/3 semen interest on any of the bulls in the offering.

## Delivery

We'll feed 'em till you need 'em, and delivery for free wherever that may be.

## Pathfinders

Sires and dams in pedigrees are indicated by the # mark.

## Herd Health

Our herd is on a vaccination program, developed in conjunction with Chuteside Vet Clinic. Bulls are vaccinated at branding, at weaning, and again at fertility testing. Bull have been vaccinated with Fusogard (footrot) and have been boosted. In addition, all 3, 4, and 5 year old cows are tested for Johnes. Questions about the herd health program can be directed to Chuteside Vet Clinic at 406-285-3923.

## Welcome to The Thousand Hills Angus Annual Bull Sale!

Since Andy passed away in August of 2022 this letter has been in my thoughts, almost daily. A letter I've mentally written and went over a hundred times.

Andy was an incredible individual, an outstanding son, grandson, brother, husband, father and friend. His battle with cancer lasting half a decade is unforgettable in our Angus circles and the commercial ranching and farming community. He is a true inspiration!

We lost a very talented Angus breeder. One that was in love with the Angus breed and the art of breeding them. Andy was a true student of the breed. He not only studied and knew his own herd, but his knowledge and retention of pedigrees across the breed and their history was impressive. Breeding Angus cattle was Andy's passion. He lived to engage with the cattle industry, knowing his part was to produce the best seed stock possible, so the Thousand Hills customers could excel in their cattle endeavors. Andy wanted them to improve their cow herd and enjoy them as much as he enjoyed his.

Andy knew how to enjoy the process of producing Registered Angus cattle, that working alongside his dad and brother was a gift. He was a man that cherished working with his family every day. Andy understood that being a husband and father and doing what you love, well it just doesn't get better than that. Those that knew him are better for it, I'm convinced of that!

The offering you will appraise on March 11th is the labor of love of a young man that is no longer with us. His legacy will live on in his sons, his family, and the cow herd he helped shape. Andy was extremely proud of the Thousand Hills home raised sire TH Gunsmoke 255, and he had every right to be. His sons have been sale highlights the past couple of years and his daughters should be terrific. Andy had an eye for good cattle and Gunsmoke is proof of that.

If you have any questions leading up to the Thousand Hills Sale please don't hesitate to reach out via phone, text, or email. We hope to see you on March 11th.

Ron Frye | 406.600.7514 | RonFryeMarketing@gmail.com | RonFryeMarketing.com

## A GUIDE TO EPDS

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the American Angus Association database. EPDs are expressed in units of measure for the trait, plus or minus.

### PRODUCTION

**Calving Ease Direct (CED)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth Weight EPD (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight EPD (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Yearling Weight EPD (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**Scrotal Circumference EPD (SC)**, expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

### MATERNAL

**Maternal Milk EPD (Milk)**, is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

**Heifer Pregnancy (HP)**, is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

### \$VALUE INDEXES

**Maternal Weaned Calf Value (\$M)**, an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

**Weaned Calf Value (\$W)**, an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning. The underlying objective being producers will retain 20% of the female progeny as replacements and sell the rest of the cull females and their male counterparts as feeder calves. Traits included are as follows (in no particular order): birth weight, weaning weight, milk, and mature cow weight.

### CARCASS

**Marbling EPD (Marb)**, expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area EPD (RE)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

**Fat Thickness EPD (Fat)**, expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

The top selling bull in our in 2019 sale, and a standout from the day he was born, out of Chisum 255, he's in the top 1% for \$M and 5% for \$W. Along with an impeccable foot and leg structure, his calves are thick with incredible hip and hind quarter. His elite dam, Windy 078 X Hero 2418, is the 3rd consecutive generation to achieve pathfinder status. She is the 8th straight generation to produce 7 or more calves.

His daughters are going to make outstanding cows.

We selected this Resource son as the second high seller in the 2020 Pine Coulee sale. We really liked the way he combined the Blackcap May cow with the Everelda Intense cow family into an excellent combination of muscle and mass that extends down through his hip and shoulder. He is easy moving with a wide base, and projects the masculine, timeless look of his sire. His dam recorded 3WR/113 and 2YR/112. He is in the top 1% of the Angus breed for Heifer Pregnancy.

Resilient was the high selling bull in the Sitz 2019 Fall Sale, selling for \$160,000. Resilient progeny are very clean fronted and have a very eye appealing profile. Resilient sons have been very well received by buyers across the country. Resilient daughters are making angular, stylish feminine cows. Resilient traces back to a long line of superior cows in the Sitz program. We decided to use Resilient because of the cow power we feel he will bring to our herd and to our bull buyer's herds.

Patience rewarded. I don't know who made this sale order, but this is a pretty good bull to be the last one in the sale.

# Commercial Bred Heifers

## Lot 51

20 commercial heifers right out of our replacement pen. Bull bred to calve Feb. Ultrasound pregged mid-June by Chuteside Vet. These heifers will be at the ranch sale day. Video of the heifers will be available sale day. If you want to see them we would be happy to make those arrangements.

We have calves on the ground from this exciting Windy son. He adds power and thickness. Look for calves from him in our 2023 sale.

## WHY WE TEST WITH HD50K™ FROM ZOETIS

Powered by HD50K™ from Zoetis, our cattle sell with genomic-enhanced expected progeny differences (GE-EPDs).

With GE-EPDs, we're confident that customers like you can minimize risk in their investment — and enhance the productivity of your cattle.

The benefits of buying HD50K-tested bulls and heifers goes beyond added accuracy for the complete range of traits for more productive daughters and progeny. You'll know early on what that animal is likely to transmit to its offspring and potential for performance in the feedlot and on the rail. You can also match the HD50K tested sires you buy from us to replacement heifers — through GeneMax® Advantage™ — to make better-informed breeding and management decisions down the road.

Knowing an animal's potential. Continuous progress of your herd. That's why we test with HD50K.

For more information: Contact your Zoetis representative  
 Call Zoetis customer service at 877-233-3362

# *Sale Notes*

*We look forward to seeing you sale day!*

Rick Van Dyken 406-581-2078

The bulls can be viewed at our home anytime up to the afternoon before the sale when will be hauled to Headwaters Livestock Auction.

*Scan Me!*

Scan this QR Code with any smartphone camera! Hover over the QR code in the catalog, and you will be directed to the sale lots video page

A man wearing a white cowboy hat, a blue plaid shirt, and a dark vest stands with his back to the camera, leaning on a wooden fence. He is looking out over a vast, open field where a large herd of black cows is grazing. In the background, there are rolling hills under a cloudy sky.

*Andy Van Dyken*

4/5/91 - 8/20/22

# *As I sit in heaven*

and watch you everyday.

I try to let you know with signs.

I never went away.

I hear you when you're laughing,  
and watch you as you sleep.

I even place my arms around you  
to calm you as you weep.

I see you wish the days away,  
begging to have me home,  
so I try to send you signs  
so you know you are not alone.

Don't feel guilty that you have  
life that was denied to me,  
heaven is truly beautiful,  
just you wait and see.

So live your life, laugh again,  
enjoy yourself, be free.

Then I know with every breath you take  
you'll be taking one for me.
